GLOBALIZATION

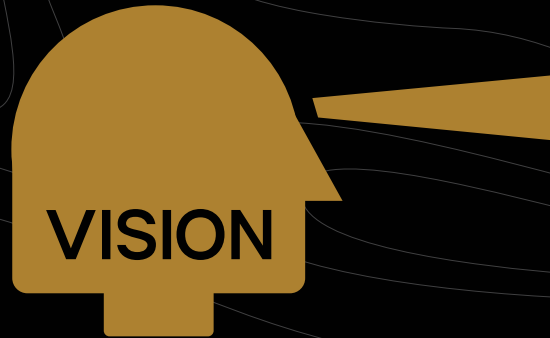

SWIFTtrip ...We Bounce, right to the top.

SWIFTtrip

SWIFTtrip, a proposed Aviation, E-taxi and E-commerce service furnishing firm, is building a customer loyalty structure in Nigeria upon which our Eco-chain business model will rapidly spread across the nation on the business launch and also to the globe at large. As such, her first subscribers before the official business launch are offered a lifetime global profit share percentage opportunity accounts of 0.05% to 0.0005% which is the stakeholders' level from "Deluxe" down to "Base Slot" representing 2% of its shares to those who came in as "SWIFTtrip Stakeholders".

SWIFTtrip offers another profit share of 0.00000125%, which SWIFTtrip refers to as "SWIFTtrip Node" at an affordable and risk-free. Closing off this opportunity makes you a Nodeholder in SWIFTBIZ TRANSPORT LTD, as the subsidiaries reserved 3% profit shares for 2.4 million Nodeholders to raise a minimum project fund of N40 billion. This process should strictly be considered a "SWIFTtrip CrowdFunding Program".

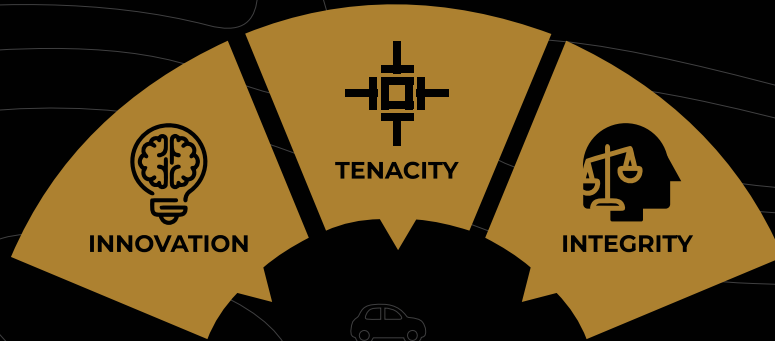

Subscribing to SWIFTtrip Node is the best and most profitable life savings anyone can venture into for his or her future as 0.00000125% shares will yield for you in a magnifying per usage interest rate over NGN1.25billion in less than 5 years.

A System that is
people's oriented & driven
both in shares
& profits.

Putting the people first,
through the process & the
progress in all humility
& transparency.
